Portfolio Website - Built a personal portfolio website with a responsive design.
Restaurant Website - Designed a responsive website for a restaurant or food-related business.
- **Integrated Crop Protection and Management** [🔗](#) **Jan 19, 2025 - June 16, 2025**
Integrated Crop Protection and Management (ICPM) combines traditional farming methods with modern technology to improve crop yields, reduce pest damage, and protect the environment. This approach includes techniques like pest monitoring, biological controls, and precision farming. Through real-world examples, this paper shows how ICPM helps ensure food security while minimizing harm to nature.

CERTIFICATES

- Certified by NxtWave in building **Dynamic web applications**. **May 30, 2025**
- Certified by Cisco in **Python Essentials** with strong programming and problem-solving skills. **Feb 16, 2025**
